EXPLANATORY NOTES

1. In order to meet the needs for government administration and academic research, the Ministry of the Interior tabulates and compiles the population data produced from household registration into three types of publications with Chinese-English version according to their different contents. The first publication is entitled "The Monthly Population Statistics of Household Registration ". It consists of numbers of households, population and vital events, population density, sex ratio as well as rates of population growth and of vital statistics. The second is entitled "Demography Quarterly". Its contents comprise the annually analytical data of vital statistics and the monthly data of birth, death, marriage and divorce as well as the quarterly data of international migration. The third is entitled "Demographic Fact Book", which is published annually. It contains absolute figures of both static and dynamic population data as well as relative rates or ratios calculated according to the international standards.
2. The Demography Quarterly, the successor of the "Taiwan Demography Monthly", is the second of the above three publications. Due to suggestions from the related organizations, the Monthly has been changed into the "Taiwan Demography Quarterly" since January 1975, and it has been entitled "Taiwan-Fuchien Demography Quarterly" since January 1994. It has been entitled "Demography Quarterly" since January 2007.
3. The routine tables of the Quarterly are table 1 through table 7, which contain the monthly population data of household registration. Among them, table 6 is newly added since 1999, it includes registered divorces, and unadjusted, seasonally adjusted and cumulative divorce rates. All the monthly rates are converted into annual rates and the rates of birth, death, marriage and divorce are presented together with seasonally adjusted ones.
4. The population data used in this Quarterly cover only the Chinese who possesses a household registration .
5. Except the numbers of civil divisions and households, "Person" is taken as the unit of integral number in tables. The symbol "—" stands for "None" and "0.00" for less than 0.005 per 100 or 1000 population; and "※" for the aboriginal township.
6. We acknowledge with profound thanks to the departments of civil affairs of the municipality, county and city governments, and the household registration offices on township (city or district) level for the submitting of demographic data for this publication.
